Creating Plants:

Step 1 Log into Deye Cloud APP and enter the plants list page;

Step 2 Tap on the top right corner of the page  and choose “Create a Plant” ;

Step 3 On the “Create a Plant” page, enter Plant information;

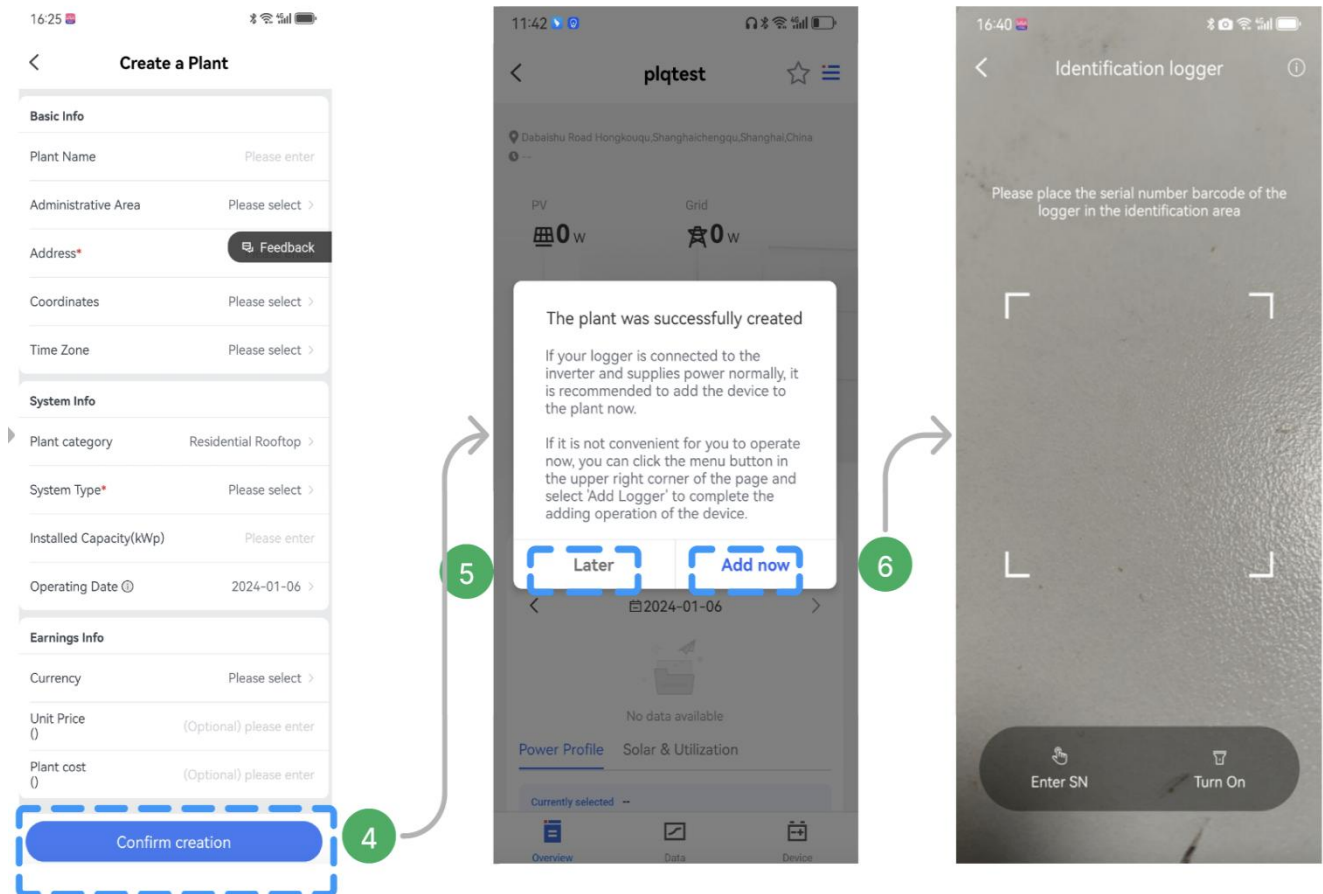

notice: Unit Price and Plant cost are optional. Others are mandatory.

Step 4 Tap **【Confirm creation】**, then a plant has been created;

Step 5 Tap **【Later】** in pop-up and you can add a logger later;

Step 6 Tap **【Add now】** in pop-up;

Two methods of adding a logger are provided (choose any step 7 or 8 to go to step 9) :

Step 7 Scan QR code on the logger; After successful scanning, tap **【Confirm】** to complete adding;

Step 8 Manual Enter; After entering the SN on the logger, tap **【Confirm】** to complete adding;

Step 9 The page display the logger has been added successfully;

Step 10 Back to the plant list page and check the communication status of the plant; **【Normal】** indicates that the communication status of the logger is normal and **【Commissioning】** indicates abnormal.
